Key Achievements

- As a School Captain in High School, I spearheaded initiatives promoting environmental stewardship, including the planting of 300 trees in the school compound and engaging in community service at a Children's Home, where additional trees were planted alongside other impactful activities.
- Participated actively as a leader in the Christian union serving as the Development leader who was in charge of assessing needs and making recommendations on what the budget should be sent on in terms of enhancing the spiritual experience of learners.
- Learned coding skills (HTML, CSS, and JavaScript) and other computer skills during a 5-week Software Development Bootcamp at Missions of Hope International (MOHI) offered in 2022. Ever since I have been building on my Coding skills.
- Was part of a school club called Ateni in which we engaged in 15-week program on Financial Literacy and Later on 15-week program on Climate Change
- Achieved recognition as a RISE Finalist in 2023, a prestigious global initiative supported by Schmidt Futures and the renowned Rhodes Trust, aimed at identifying and nurturing exceptional student talent worldwide. Here is the [link to the video](#) capturing the Climate Action project I did to get me to the finalist round.
- Participated in the RISE Challenge, receiving specialized training and certification in Climate Action—an essential skill in addressing pressing global concerns.
- At Mabatini High School I have been volunteering in tutoring high school students in Mathematics and Physics. As a mentor, I also Applied innovative approaches as a volunteer and mentor at Mabatini, leveraging icebreaker games to foster a positive shift in student attitudes towards education.
